

CONTENTS

Calculation of oxygen fugacity for intermediate-acidic intrusive rocks and discussion of related questions  
..... ZHANG Ju-quan et al. ( 1 )

Characteristics of Trace Elements in Quartz from No.3 Pegmatite, Koktokay area, Xinjiang Autonomous Region, China and implication for Magmatic-Hydrothermal Evolution ..... TANG Hong et al. ( 15)

Rare earth elements and C—O isotopic geochemistry of calcite in Kangjiawan Pb-Zn deposit, Hunan Province, China ..... ZHANG Bang-lu et al. ( 25)

Theoretical study on lithium diffusion and fractionation in enstatite ..... LIANG Guang-ming et al. ( 36)

A Study on genesis of enargite from Zijinshan Copper Deposit, Fujian Province, China  
..... WU Ming-hao et al. ( 41)

Genesis and Formation of Amphiboles in Myanmar Raw Jadeite ..... CAI Shi-shi et al. ( 50)

Apatite formation from calcite under hydrothermal environment; transforming mechanisms and influencing factors ..... SHI Cheng et al. ( 58)

A Study on influence of isomorphous substitution in magnetite on its adsorption behavior of Pb(II)  
..... TAN Fu-ding et al. ( 64)

Vertical weathering characteristics of surface samples of shale gas reservoirs ..... YU Zhong-bin et al. ( 74)

A Study on interaction mechanism between lignite particle interface and slime water  
..... LIAO Xiang-lei et al. ( 85)

Structural Properties and Benzene Adsorption Performance of Acid Activated Palygorskite  
..... ZHANG Ping et al. ( 93)

Preparation of Calcium Silicate Whisker with Coal Combustion Fly Ash and Carbide Slag  
..... REN Kun et al. ( 100)

Mineral composition and its characteristics of bentonite from Kerjian Area, Xinjiang Autonomous Region, China ..... XU Ying et al. ( 104)

Characteristics of the main ore minerals in Tiegelongnan porphyry-high sulfidation deposit, Tibet, China  
..... WANG Yi-yun et al. ( 109)

A Study on process mineralogy of low-grade high-iron bauxite and iron recovery technology  
..... CHEN Zhi-you et al. ( 123)
